

# Welborn Baptist Foundation **CHRIST-CENTERED LIVING LOGIC MODEL**

**PRIORITIES** = The way the assets are contributed to the cause    **OUTCOMES** = The desired changes that will lead to community change  
**COMMUNITY CHANGE** = Improvement that benefits the entire community    \***CENTERED-SET** = Christians putting faith into action by working alongside others who care about the same thing, e.g., poverty. By focusing on similar passions and interests rather than differences, Christians can better align their communities with God's blueprint for the physical, social, and economic aspects of a healthy community  
*Isaiah 65-17-25*
